PROFESSIONAL SUMMARY

Digital Product Designer based in Saint-Malo, with experience designing B2B digital products, building documented design systems from scratch and collaborating closely with development teams. I combine UX/UI design, information architecture, prototyping and a strong Front-End background to create useful, consistent and technically feasible digital experiences.

CORE SKILLS

Digital Product Design · UX/UI Design · User Journeys · Wireframing · Prototyping · High-Fidelity Interfaces · Information Architecture · Design Systems · Component Documentation · Design Tokens · UX/UI Standards · Developer Handoff · Front-End Collaboration · Cross-Functional Collaboration · Accessibility · Behavioral Design

TOOLS AND TECHNOLOGIES

Figma · Adobe Creative Suite · Angular · TypeScript · JavaScript · HTML · Sass · Git · GitHub · GitLab · Jira · Sourcetree

PROFESSIONAL EXPERIENCE

Product Designer

Staff & Go — Remote, France | July 2023 – December 2024

Designed and documented the UX/UI foundations of a B2B digital product, working across product design, design systems and front-end collaboration.

- Built a B2B design system from scratch, documenting 25+ UI foundations and components, including design tokens, buttons, inputs, tables, dialogs, badges, filters, navigation patterns, tabs, snackbars and form controls.
- Created detailed documentation for developers and project managers, covering component anatomy, variants, behaviors, usage rules, edge cases and implementation guidance.
- Established reusable UX/UI standards to improve interface consistency, product scalability and collaboration between product, project management and development teams.
- Worked closely with developers during component implementation, ensuring alignment between Figma documentation and the Angular front-end.
- Designed new product features from scratch, including user flows, information architecture, wireframes, prototypes and high-fidelity interfaces.
- Contributed directly to front-end development using Angular 16, TypeScript, Sass and HTML.

Front-End Developer

Power Electronics — Remote, Spain | October 2021 – September 2022

Joined the development team with a dual Front-End and UX/UI profile to help bridge the gap between design and engineering on B2B industrial software products.

- Developed front-end interfaces for B2B software products in the electricity sector using Angular 12, TypeScript, Sass and HTML.
- Acted as a bridge between design and development teams, helping improve communication and reduce friction during implementation.

- Helped unblock design-related issues on product screens when the design team was overloaded, enabling projects to move forward.
- Translated design requirements into technically feasible interfaces while preserving usability, visual consistency and product intent.
- Worked with GitLab and Sourcetree in a structured development workflow.

Front-End Developer

Optiva Media — Madrid, Spain | March 2021 – October 2021

Worked on streaming-style audiovisual content platforms for major clients such as Orange, HBO and Filmin.

- Worked within the multi-screen team responsible for B2B and B2C video platform products across different devices and screen contexts.
- Fixed UI and front-end bugs on large-scale audiovisual platforms, improving interface stability and user experience.
- Contributed to front-end developments using AngularJS, JavaScript, Sass and HTML.
- Supported a senior developer in building a dedicated digital platform for UEFA Euro 2020, including competition information, live content and event-related features.

UX/UI Designer and Analyst

Walmeric — Madrid, Spain | February 2020 – September 2020

Worked on B2C digital products focused on lead generation, collaborating closely with the Product Owner on ongoing company projects.

- Collaborated directly with the Product Owner, who coordinated product priorities and the development team.
- Contributed to UX/UI analysis and design decisions for digital lead generation products.
- Helped translate business and product needs into user-centered interface proposals and interaction flows.
- Worked on improving usability, clarity and consistency across existing product screens.

UX/UI Designer

Akimad Agency — Madrid, Spain | July 2019 – February 2020

Designed mobile-first MVPs for startup clients, helping transform early-stage business ideas into structured user journeys, wireframes and investor-ready prototypes.

- Led UX work on Hawi, a mobile app concept aimed at reducing loneliness among older adults, from initial discovery to a role-based interactive Figma prototype.
- Facilitated client discovery sessions and workshops to define product goals, user roles, core journeys and key app actions.
- Designed mobile app flows, paper sketches, wireframes, Figma prototypes and early visual foundations.
- Presented design work directly to Spanish, English-speaking and French-speaking clients.

Motion Designer, Video Editor and Digital Designer

Vivocom and Freelance — Madrid, Spain | 2006 – 2019

Built a strong foundation in visual communication, motion design and digital content production before transitioning into UX/UI and product design.

- Created audiovisual, motion and digital communication assets for major corporate and institutional clients including Vodafone, Endesa, Enel and Red Cross Spain.
- Worked on video editing, motion graphics, editorial design, web visuals and early internet TV platform interfaces.

EDUCATION

Behavioral Design Certification

The Behavioral School — 2024

Applied cognitive psychology and behavioral science to user-centered digital products and services.

Full-Stack Developer Program

4Geeks School — 2020–2021

Training in front-end and back-end web development.

Master's Degree in UX/UI Design

Trazos School — 2019

User-centered design, prototyping and interaction design.
